Career summary so far

Full Stack Java Developer with 3.3+ years of experience specializing in enterprise web applications. Expertise in Spring Boot, Java, Angular, and Microservices architectures with proven success implementing cloud-native solutions on AWS and Kubernetes platforms. Skilled in optimizing application performance and designing scalable database solutions.

Core Technical Skills

Languages & Frameworks |
- Java, Spring Boot, Angular

Spring Framework |
- Microservices, RESTful APIs, Spring Data JPA, Spring Cloud Gateway, Hibernate

Database |
- MySQL, MongoDB, Postgres, Oracle, Redis, NetApps S3, Azure Blob Storage

Cloud |
- AWS, Docker, Kubernetes, CI/CD (Bamboo, Argo CD), Helm Chart

Server and Tools |
- Git, Github, Maven, Jmeter, Gradle, JFrog Artifactory

Experience

Volkswagen Group Technology Solutions India   **September 2022 – Present**
Software Engineer, KPM Silverstone- Halle/Scrapping & Supplier Portal

- Developed and deployed a secure Supplier Portal application using Spring Boot microservices that improved issue resolution time by 35% and streamlined communication between users and suppliers.

- Worked on multiple interfaces managing upstream and downstream data processes for the application.

- Served as authorized approver for team pull requests, providing technical oversight and quality assurance for code submissions.

- Integrated Multiple External Services into the application using REST API's, and contributed to the **MIGRATION** of the Object Store service from NetApp-S3 Storage to Azure Blob Storage and S&E (an internal product).

- Collaborated with cross-functional teams in Agile environments, mentoring junior developers and improving team productivity.

- Developed end-to-end workflows, including backend and frontend development, and deployed applications using Bamboo CI, Argo CD, and OpenShift Kubernetes pods for scalable and efficient delivery.

- ***TECH STACK*** - Angular, Java, Spring Boot, Spring Data JPA, Spring Cloud Gateway, Hibernate, MySQL, GIT, Maven, Kubernetes, AWS S3, Microservices, Docker, JMeter, Redis, Gradle, JFrog Artifactory, Cloud Foundry, OpenStack Object Store etc.

INAT technologies Pvt. Ltd.   **March 2022 – August 2022**
Software Engineering Internship, Sway CRM (Customer Relationship Management)

- ***TECH STACK*** - Java, Spring Boot, Spring Data JPA, Hibernate, MySQL, GIT, Gradle, Microservices etc

- Designed and Built RESTful API endpoints using Java, Spring Boot, and Spring Data JPA for Sway CRM's microservices architecture, enhancing system functionality and performance.

- Assisted with database operations using Hibernate and MySQL to store and retrieve customer data, implementing basic queries for the CRM's core functionality.

- Participated in agile development processes, utilizing Git for version control and Gradle for build automation, gaining hands-on experience with industry-standard development workflows.

Achievements

- Certified Java Developer - Modern Java 8 Features

- Agile Software Development Methodology Certification

- Angular Frontend Development Certification etc.

Education

Annamalai University, Chennai - 83.33% aggregate   **September 2017 – July 2021**
Bachelors of Technology

Little Fairy Public School, Delhi - 65.83% aggregate   **Till March 2017**
Till Higher Secondary Education

Additional Information

Languages |
- English (Professional), Hindi (Native)

Declaration

I genuinely declare that all the facts mentioned above are true to my faith, and I am answerable for its accuracy.
